

LATAM Bank
Today, 9:41 PM

Card charge
- US\$ 189.00
Online store

A charge they don't recognize.

What happens in the next few minutes
can either strengthen their trust in you
or make them look another bank.

THE PROBLEM

Disputes break **trust.**

More than 1 in 3 customer complaints at LATAM Bank between Jun 2023 and Jun 2026 were about a disputed transaction.

FOR CUSTOMERS

Strees and uncertainty
Long waiting time
Possible financial loss

FOR THE BANK

High operational costs
Repetitive manual work
Customers leaving

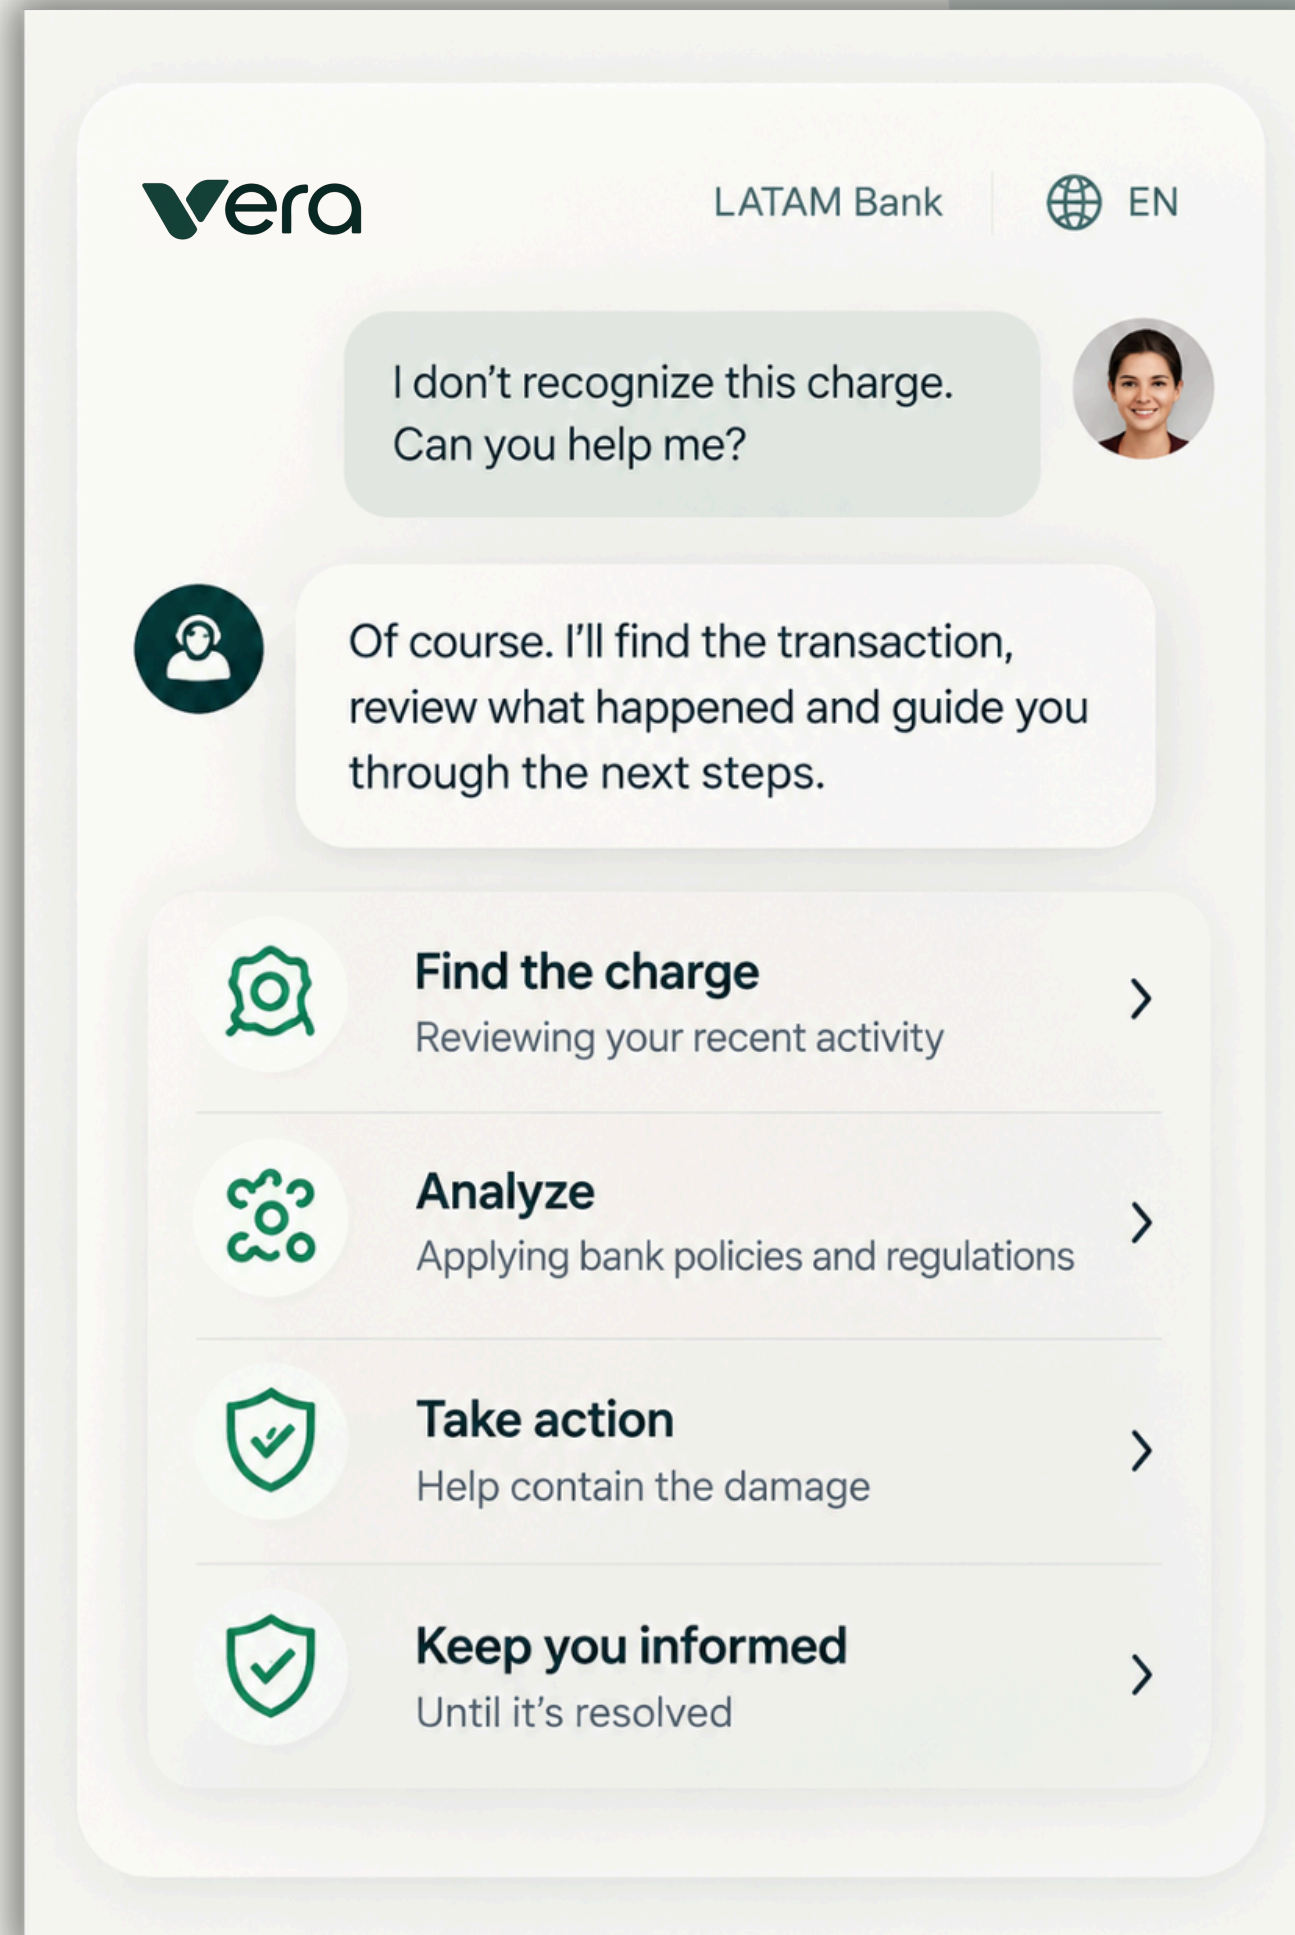

THE SOLUTION

IA THAT
BUILDS TRUST.

VERA discovers what really happened, helps contain the potential damage and accompanies your customer until it's resolved, in line with the laws of their country.

01
Understands
the case

02
Applies
verifiable rules

03
Helps contain
the damage

04
Hands over a
complete case
when human
judgment is needed

Modular by design. Ready to plug in.

A hegaxogan core that **the bank owns**: each system connects through a port, and the model can be swapped **without touching the rules**

(709 Python * 21 web)

Proven results with 300 real cases

VERA handled 45 out of 100 first contacts without a human agent - more than double a traditional keyword - based assistant. And only 4 out of 100 customers had to repeat their story.

45/100

first contacts handled
without an agent

4/100

customers had to repeat
their story

0/100

misrouted cases
to the wrong queue

FULLY TRACEABLE

Every action is logged:
rules, version, evidence.

READY TO SCALE

Expanding to a new country
starts by loading its regulation

WORKS WITH YOUR STACKS

Connects with your existing
systems and keeps your rules
and safeguards

THE OPORTUNITY

A more secure, more human and more trusted banking experience is within reach.

With VERA, your customers keep
trusting you, and you can trust the
AI that supports them.

INTELLIGENCE
THAT BUILDS TRUST.
